

Architectural Series

GAUGE: NOMINAL THICKNESS .050"

Architectural Series is thicker than industry standards, making it the first choice for durability.

It

comes in a satin-smooth finish. Choose from a range of classic colors and distinctive profiles. For added elegance, try combining it with our exclusive Board & Batten vertical. **Wind Tested to 240 MPH:**

The Windlok 240 feature has been tested to hold secure in winds of up to 240 mph with no wind flap, shifting or tearaway. It's a sure way to get a grip on bad weather.

FEATURES

Manufactured using our exclusive Dura Technology™ process with Dura™ Color Protection.
