

Mastic - Discovery siding

Mastic Premium Siding: Cedar Discovery

For nearly 70 years, home improvement professionals and homeowners alike have trusted Mastic® for product performance that reaches far beyond expectations. The first company to produce vinyl siding, Mastic® has long been an established leader in innovative home exterior product design and engineering, and continues to lead the industry with advanced design features that deliver premium quality and superior performance. Mastic® introduced Duranyl®, a superior siding formulation that delivers exceptional durability. Mastic® is also the brand responsible for introducing the patented T-lok® panel locking system that is currently the industry standard.
